Dublin, Ireland

Software Test Manager/PM with 12+ years Software Testing experience. Data driven approach to delivering targeted, risk-based and efficient Testing strategies. Extensive experience of Agile, Waterfall and Continuous Integration models. Successfully managed small and large Testing teams. Experienced in the setting up and management of local and offshore Test teams.

WORK EXPERIENCE

Test Manager, Accenture; Dublin - May '17-Present.

Consistent strong delivery of efficient Software Testing best practices through the review of existing systems and data for clients such as AIB, Google, BOI and ESB Networks. Built fully automated dashboards to report progress on execution extracting data from JIRA/HP ALM reducing time and cost. Responsible for driving the implementation and adoption of Scrum and Agile methodologies by the Product Teams.

Tech Lead, R/GA Media; Argentina - Aug '16-May '17

Led various Testing projects for major clients such as Nike, Samsung, Johnson & Johnson, Facebook and Google. Implemented a Targeted & Risk Based Testing Approach to support the move to an Agile Release model.

Test Manager, HSBC Bank; Argentina - Jun '14-Jun '16

Managed the entire E2E Testing process for the bank's Online Banking application for the LATAM region. Design & Implementation of a Targeted & Risk Based Testing approach working with XF teams based in EMEA, US, Canada, Mexico and Philippines.

Sr. Test Lead, Accenture; Argentina - Apr '09-Jun '14

Managed the Testing and Release cycles of Accenture's Top internal Tool (HR ERP) for all employees worldwide. Automated the entire Regression Test with QTP (Vbscript)

QA Lead, Hewlett-Packard; Argentina-Nov '06-Apr '09

Led the Testing effort for HP's internal e-commerce Portal, with top visibility for all employees worldwide.
